

COVID-19 Vaccine Coding and Billing Reminder - Vermont Only

In accordance with CDC guidance and Payment Policies as outlined below, MVP Health Care® (MVP) will cover approved COVID-19 vaccines at no cost share to Members in all Plans and will reimburse Participating Providers and out-of-network providers for the administration of COVID-19 vaccines.

MVP Commercial Members

In addition to the vaccine administration code, Vermont Providers must also include the vaccine code— billed with a \$0.00 or \$0.01 charge on the claim. COVID-19 vaccines are not considered state-supplied; therefore, providers should not use the SL modifier.

* CDC guidance regarding eligibility for a booster dose is available for review at [cdc.gov/coronavirus/2019-ncov/vaccines/booster-shot.html](https://www.cdc.gov/coronavirus/2019-ncov/vaccines/booster-shot.html).

Following AMA and CMS guidance, the administration code must match the manufacturer code of the vaccine provided at the encounter. The Vaccine Administration (Vermont Only) Payment Policy will be updated with these additional codes. To review the current policy, visit mvphealthcare.com/policies and select *Payment Policies, Effective January 1, 2022*, then select *Vaccine Administration (Vermont Only)*.

MVP Medicare Advantage Plan Members

As of January 1, 2022, COVID-19 vaccine administration claims for MVP Medicare Advantage Plan Members should be submitted to MVP. Providers should not include the vaccine codes on the claim, when COVID-19 vaccine doses are provided by the government at no charge and should only bill for the vaccine administration.
