Changes to Medicare Part B Due to the Inflation Reduction Act

The Inflation Reduction Act, signed in August of 2022, affects the cost of drugs covered under Medicare Part B in two ways:

- Beginning April 1, 2023, the Centers for Medicare and Medicaid Services will review the price of certain Part B drugs each quarter. If your plan has a co-insurance for Part B drugs, what you pay for your prescription could change quarterly based on the cost of the drug. Your co-insurance will never exceed 20%.
- Beginning July 1, 2023, the cost-share for insulin covered by Part B will not exceed \$35 for a one-month supply.

If you have any questions, please call the MVP Medicare Customer Care Center at the phone number on the back of your MVP Member ID card.
