ANNUAL REVIEW OF CLINICAL CRITERIA

InterQual® criteria, published by McKesson® Health Solutions, is used in many of MVP Health Care's medical review processes to support the medical necessity of health care services. The annual changes to the criteria are published for health care practitioners to review prior to implementation. MVP has posted a copy of the InterQual criteria changes on our website. For access, visit mvphealthcare.com and *Sign In/Register*, then select *Medical Policies* under *Resources*. There is a *InterQual 2018 Clinical Revisions* link to the changes for your review and comments.

The criteria will be available for physicians to review for 15 days. If after your review, you have questions about these changes, you may speak to the MVP Medical Director by calling **585-327-2316**. The effective date of the criteria change will be communicated in a subsequent FastFax following the comment period.

If you have any questions with respect to this notice, please contact your Professional Relations Representative.
