

## Services Not Separately Reimbursed

MVP Health Care® (MVP) previously communicated that effective September 1, 2019 a new payment policy would be in place which would not reimburse specific services separately that were determined to be inclusive in other payments. Specifically, CPT Code P9604 (payment for a specimen collection fee and travel allowance) would not be separately reimbursed. MVP will only reimburse this code per Medicare guidelines when the member is a nursing home patient or homebound patient under Section 1833(h)(3) of the Act. In addition, contracts outlining this code will continue to reimburse for this service.
