

Radiology Prior Authorization Updates

MVP Health Care® (MVP) is making changes to the eviCore Healthcare (eviCore) utilization management program as of January 1, 2022.

The changes to the prior authorization are as follows:

- CMS added procedure codes which were released mid-year, and will be effective with eviCore Claims Studio, and the Delegated Claims
- The AMA will add procedure codes to be effective on January 1, 2022, and will be implemented with eviCore Utilization Management, Claims Studio, and Delegated Claims
- The AMA will delete codes effective December 31, 2021. If eviCore received these codes for dates of service (DOS) after December 31, 2021, claims will deny for procedure codes invalid for DOS
- The AMA has revised procedure code descriptions effective January 1, 2022

To view these updated procedure codes and descriptions and the rationale for addition or removal from the eviCore utilization management program, *Sign In* at mvphealthcare.com/provider and select *Online Resources*, then *MVP/eviCore updates January 1, 2022*.

There are no procedure code updates to the Radiation Oncology program.
