MVP Partners with LetsGetChecked to Offer Medicaid Members At-Home Kits to Complete Preventive Screenings

To help Participating Providers close gaps in care and improve their quality performance for the Colorectal Cancer Screening (COL) and Kidney Health Evaluation for Patients with Diabetes (KED) HEDIS measures, MVP Health Care® (MVP) has partnered with LetsGetChecked, a health and diagnostics company that offers home laboratory testing services.

Beginning **November 9, 2023**, LetsGetChecked will ship at-home collection test kits to **Medicaid Members** who need to complete their colorectal cancer screening or annual kidney test. Members who need to complete their colorectal cancer screening will receive a fecal immunochemical test (FIT) kit. Members living with diabetes and in need of their annual kidney test will receive a blood and a urine collection kit.

MVP will notify Members that they will receive an at-home collection kit, through a letter campaign, before receiving their kits. The kits will include everything the Member needs to complete their screening, including instructions for returning their sample to LetsGetChecked for testing.

LetsGetChecked will mail test results to Members and their primary care provider (PCP) on file. For Members who have an “abnormal” result, LetsGetChecked will also outreach these Members by phone. LetsGetChecked will recommend Members to schedule follow-up appointments with their PCP to review results.

All gaps closed will be attributed to the Member’s PCP. As a reminder:

- The COL HEDIS measure assesses adults 45–75 who had appropriate screening for colorectal cancer
 - Less than a third of adults 45–75 complete their recommended screening
- The KED HEDIS measure assesses whether adults 18–85 years of age with diabetes (type 1 and type 2) received an annual kidney health evaluation
 - Kidney testing should be done each year because people living with diabetes are at a higher risk for developing chronic kidney disease

To learn more, please contact your MVP Professional Relations representative or call the Customer Care Center for Provider Services at **1-800-684-9286** (TTY 711), Monday–Friday, 8:30 am–5 pm Eastern Time.

It’s Time to Recertify Your Patients!*

The Families First Coronavirus Response Act has expired. To learn how MVP can help your patients continue their coverage, visit mvphealthcare.com/recertification.

*Applies to Members enrolled in Medicaid, Child Health Plus (CHP), Health and Recovery Plan (HARP), and the Essential Plan (EP).
