

REVISED JULY 2024

MVP Health Care Preventive Care Drug List

Your health is very important to us. And so are you!

Preventive care drugs are medications that the MVP Pharmacy & Therapeutics (P&T) Committee has determined may prevent the onset or recurrence of a disease or condition when taken correctly. Some MVP plans cover preventive care drugs as part of your pharmacy benefit. This means that, for the medications included on this list, you do not have to pay your deductible first. Instead, you will pay the cost-share determined by your MVP plan and Formulary* tier status (i.e., Tier 1, Tier 2, etc.). Please refer to your Certificate of Coverage (COC) to find your pharmacy benefits, limitations, and exclusions. To access your COC, sign in to Gia[®] at my.mvphealthcare.com and select *My Plan*, then *My Benefits*, then *Member Guide*. If you have a Self-Funded plan through your employer, also referred to as an Administrative Services Only (ASO) plan, call the MVP Customer Care Center at the number listed on the back of your MVP Member ID card.

How to Use the Preventive Care Drug List

You can jump to a specific drug category in this list by selecting the category in the Table of Contents. You can also use the Find tool by clicking on the magnifying glass in the upper right corner and typing in the drug name or other appropriate keyword(s).

If you need to check the cost of a drug, sign in to Gia at my.mvphealthcare.com and select *My Plan*, then *Manage Prescriptions*. This will bring you to the CVS Caremark[®] homepage where you will select *Plan & Benefits*, then *Check Drug Cost & Coverage*.

When reviewing the Preventive Care Drug List, please keep in mind that:

- The medications included on this list will still follow Formulary rules—this means that additional information such as Prior Authorization, Step Therapy, and/or Quantity Limits may be required before the medication is approved (this additional information is not included in the Preventive Care Drug List; please refer to the MVP Formulary or you can call the MVP Customer Care Center at the number listed on the back of your MVP Member ID card)
- Some drugs on this list are “non-Formulary” which means they are not listed on the Formulary and may require additional information such as Prior Authorization, Step Therapy, and/or Quantity Limits before they are approved—view the MVP Formulary or call the MVP Customer Care Center at the number on the back of your MVP Member ID card
- This list does not apply to excluded drugs, for example, drugs that are not approved by the Food and Drug Administration (FDA)

*List of covered drugs.

Health benefit plans are issued or administered by MVP Health Plan, Inc.; MVP Health Insurance Company; MVP Select Care, Inc.; and MVP Health Services Corp., operating subsidiaries of MVP Health Care, Inc. Not all plans available in all states and counties.

- For brand name medications that have a generic option, you may be responsible for an additional cost-share if there is a difference in cost between the brand and generic drug
- Your plan may not cover brand name drugs when a generic is available
- For the diabetes equipment and supplies included in the Preventive Care Drug List, you do not have to pay your deductible first. However, you may have to pay the cost-share determined by your MVP plan. Your cost-share for diabetes equipment and supplies may be different from your cost-share for medications. Please refer to your COC to find your pharmacy benefits, limitations, and exclusions or call the MVP Customer Care Center at the number listed on the back of your MVP Member ID card
- This list is updated periodically and is not a full list of medications
- The list is reviewed by the MVP P&T Committee and is subject to change

We are here to help you navigate your health journey. If you have questions, please call the MVP Customer Care Center at the number listed on the back of your MVP Member ID card.

For a complete list of covered drugs, check your Formulary at mvphealthcare.com/prescriptions or scan the QR code with your smartphone or tablet.

Table of Contents

Anticoagulants/Antiplatelets	4
Anticonvulsants	4
Behavioral Health	4
