

## School Based-Health Centers

The below are MVP contracted School-Based Health Centers. School-Based Health Centers provide healthcare services on school premises and may only serve children and adolescents\* who meet the following requirements:

- Either the enrollee lives in the specific school district or in the area served by the board of cooperative educational services; and
- Either the enrollee attends a district school or gets permission from the school's principal to go to a district school to get services at the School-Based Health Center.

\* Enrollees may get care at the School-Based Health Center through the time of their graduation, up to age 21. If the school district offers a preschool program, enrollees as young as preschool age can get care at the School-Based Health Center.

*This directory is effective as of April 1, 2025.*
